RR-FL-180:

Fauvism - The Fauvism expresses its inner passion with exaggerated shapes, intense colors, and bold lines. Matisse is the founder of this school.

Cubism - Cubism school of painting, the point of view of the picture is no longer a position, but a comprehensive expression of things, so that the object is reduced to a geometric shape. His founders were the Spanish painter Picasso and the French painter Braque.

Futurism - Futurist painters use color and lines to express movement speed, strength and their combination and separation in an abstract form.

Abstraction - abstraction is a combination of lines, blocks, faces, and colors,

abstracted by abstract images, representing painter Minderel.

Dadaism - Dadaism has a certain influence on later surrealism, activity sculpture, pop art, and postmodernism.

Surrealism - The Surrealist School is influenced by Bergman's intuitionism and Freud's subconscious theory, and advocates the expression of human subconsciousness and dreams. Representative painters include Spanish painters Dali and Miro.
